

SpringerBriefs – fast and easy publishing

Springer is delighted to introduce SpringerBriefs, concise summaries of cutting-edge research and practical applications across a wide spectrum of fields. Featuring compact softcover volumes of 50 to 125 pages, the series covers a range of content from professional to academic.

Typical topics might include:

- A timely report of state-of-the art analytical techniques
- A bridge between new research results published in journal articles and a contextual literature review
- A snapshot of a hot or emerging topic
- An in-depth case study or clinical example
- A presentation of core concepts that students must understand in order to make independent contributions

Author Benefits

- ▶ Briefs allow authors to present their ideas and readers to absorb them with minimal time investment.
- ▶ Briefs will be published as part of Springer's eBook collection, with millions of users worldwide. In addition, Briefs will be available for individual print and electronic purchase.
- ▶ Briefs are characterized by fast, global electronic dissemination and standard publishing contracts
- ▶ Books in the program will benefit from easy-to-use manuscript preparation and formatting guidelines, and expedited production schedules. We aim for publication 8-12 weeks after acceptance.

SpringerBriefs in a nutshell

SpringerBriefs specifications vary depending on the title, but generally, each Brief will have:

- ▶ 50-125 typeset pages, including all tables, figures, illustrations, notes, references, etc.
- ▶ Softcover binding
- ▶ Versions in print, eBook, and MyCopy so readers have access 24 hours a day
- ▶ A very quick turnaround to reach the market quickly

SpringerBriefs in Earth System Sciences

This series focuses on interdisciplinary research linking the lithosphere, atmosphere, biosphere, cryosphere, and hydrosphere building the system earth. It publishes peer-reviewed monographs under the editorial supervision of an international advisory board.
