Dear Luis:

During the coming year there will be funds available in our laboratory for the support of a distinguished Visiting Scientist, and I would like to invite your consideration of such an appointment. As you know, the work in progress in this laboratory, including that of Herman Kalckar, is closely related to your own interests and I think that it would be mutually profitable if you could come and work with us for a time. The length of the appointment and the exact dates would depend upon your convenience.

We would not be able to pay travel but I think you would find the stipend adequate. Please let me know as soon as you can whether you would be interested in such an appointment. We would be greatly honored if you would find it possible to accept.

With warmest regards,

Sincerely yours,

Bernie
