Title: EVIDENCE FOR CB2 RECEPTOR INVOLVEMENT IN LPS-INDUCED REDUCTION OF cAMP INTRACELLULAR LEVELS IN UTERINE EXPLANTS FROM PREGNANT MICE: PATHOPHYSIOLOGICAL IMPLICATIONS

Standard Licence

You hereby grant to

The European Society of Human Reproduction and Embryology

an exclusive licence for the full period of copyright throughout the world:

- to publish the final version of the Article in the above Journal, and to distribute it and/or to communicate it to the public, either within the Journal, on its own, or with other related material throughout the world, in printed, electronic or any other format or medium whether now known or hereafter devised;
- to make translations and abstracts of the Article and to distribute them to the public;
- to authorize or grant licences to third parties to do any of the above;
- to deposit copies of the Article in online archives maintained by OUP or by third parties authorized by OUP.

You authorize us to act on your behalf to defend the copyright in the Article if anyone should infringe it and to register the copyright of the Article in the US and other countries, if necessary.

In the case of a multi authored article, you confirm that you are authorized by your co-authors to enter the licence on their behalf.

You confirm to OUP that the Article

- is your original work;
- has not previously been published (in print or electronic format), is not currently under consideration by another journal, or if it has already been submitted to other journal, it will be immediately withdrawn;
- will not be submitted for publication to any other journal following acceptance in the above Journal; and
- OUP will be the first publisher of the Article.

You warrant to OUP that

- no part of the Article is copied from any other work,
- you have obtained ALL the permissions required (for print and electronic use) for any material you have used from other copyrighted publications in the Article; and
- you have exercised reasonable care to ensure that the Article is accurate and does not contain anything which is libellous, or obscene, or infringes on anyone's copyright, right of privacy, or other rights.

Further Information

(Full details of OUP's publication rights policies, including author rights can be found at https://academic.oup.com/journals/pages/access_purchase/rights_and_permissions/publication_rights)

Author Self-Archiving Policy

On publication of your Article in the Journal you are not required to remove any previously posted ORIGINAL VERSIONS from your own personal website or that of your employer or free public servers of articles in your subject area, provided (1) you include a link (url) to the VERSION OF RECORD on the Journal's website; AND (2) the Journal is attributed as the original place of publication with the correct citation details given.

You may post the ACCEPTED MANUSCRIPT of the Article (but not the published version itself) onto your own website, your institution's website and in institutional or subject-based repositories, PROVIDED THAT it is not made publicly available until 12 MONTHS after the online date of publication, and that: (1) you include a link (url) to the VERSION OF RECORD on the Journal's website; (2) the Journal is attributed as the original place of publication with the correct citation details given.

Notes

Author's Original Version (AOV): an unrefereed manuscript version of the article, as submitted for review by a journal

Accepted Manuscript (AM): the final draft author manuscript, as accepted for publication by a journal, including modifications based on referees' suggestions but before it has undergone copyediting and proof correction

Version of Record (VOR): the final published version of the article.

Free Link to Published Article

On publication, authors will be sent an online offprint link allowing access to their article on the OUP website without subscription. For authors of non- Open Access articles, this link may be shared directly with interested colleagues, but is not intended for mass distribution on websites, repositories, or through social media. If you wish to share links or draw attention to your article we would ask that you instead distribute a link to the abstract of the article. Authors of Open Access articles are free to post and distribute their links anywhere immediately upon publication.

Educational Use

You may use the Article within your employer's institution or company for educational or research purposes only, including use in course-packs, as long as: (1) you do not use it for commercial purposes or re-distribution outside of the institution/company; (2) you acknowledge the Journal as the original place of publication with the correct citation details given.
